67522
US**

Please provide a phone number: **6204740618**

Please provide your email address: **abbys@ideatek.com**

I am providing response comments related to the following application (choose one): **IdeaTek Southwest Kansas**

I am responding to concerns this project: **Proposes to serve an area that already has service
Proposes service to an area in which construction is already underway**

Please provide your response to the public comments received in the text box below.

IdeaTek provides additional explanation to comment 0050 and 0071 in relation to it's Southwest Kansas BAG application via the supporting document.

In summary, any overlap with current providers is the natural propagation of wireless signal and is not intended to duplicate coverage to served locations. The proposed service coverage area shows our intent to not count serviced locations.

In addition, limited specific evidence has been provided to demonstrate service is available to fringe service areas today, or within the 12 month BAG timeframe. 0071 comments did not sufficiently prove that qualified service is available to all residential customers in our proposed service areas which is a critical requirement of the public comment process.

Please provide supporting documents relative to your comments. Please submit multiple files as a ZIP file.
