CENTRAL LOCATION

LOGISTICS HUB

Kansas is located at the intersection of three of the nation's largest interstates I-70, I-35 and I-29. This network means that 85% of the U.S. population can be reached in two days or less from Kansas.

WIND ENERGY LEADER

RENEWABLE ENERGY

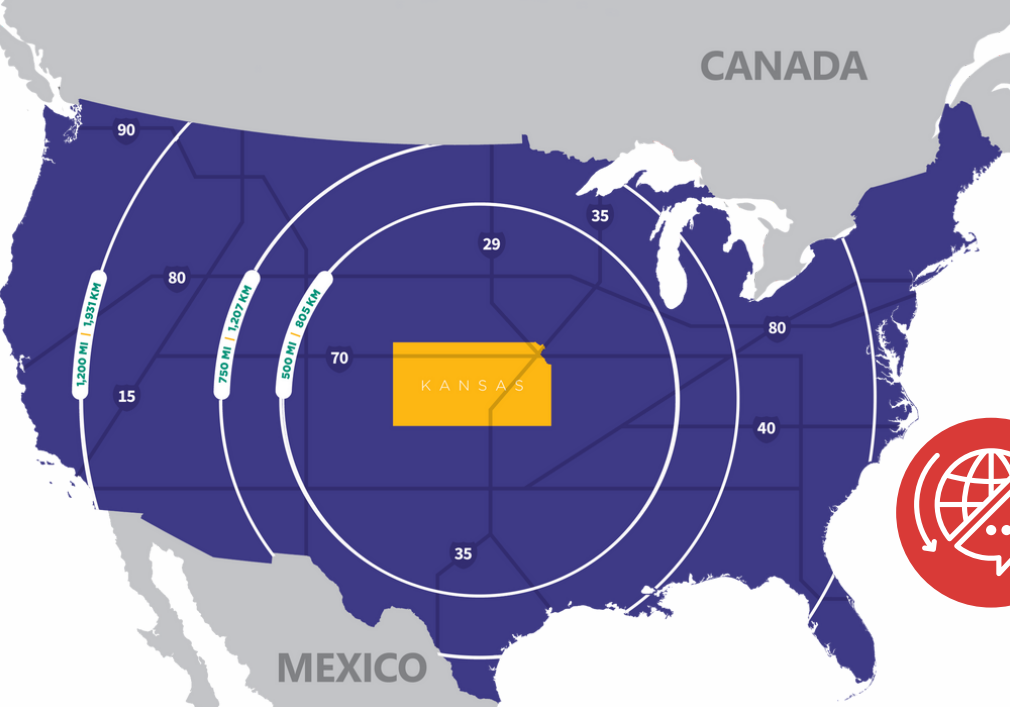

With an ever increasing percentage of the state's energy coming from renewable sources, Kansas offers an immediate advantage to companies committed to powering their operations with 100% renewable energy.

BUILDING THE FUTURE

ADVANCED MANUFACTURING

Advanced manufacturing, including automotive manufacturing and composites, is led by aviation and the GM plant that has been operating in Kansas for more than six decades, along with a number of automotive suppliers. We are poised to support this sector as it transitions to new technology in the electric vehicle supply chain.

THE MELTING POT OF THE HEARTLAND

DIVERSITY AND GROWTH

Nearly 12 percent of Kansans over the age of five speak a language other than English. Kansas is above average in comparison to other states in the region. The Wichita public school district is home to students from 97 countries, and there are 105 different languages and dialects spoken.
